

Chapter 6: Consultation and Coordination With the Public and Others

Preparation of this Draft EA included many contacts and discussions with local residents, elected officials, State employees and others. Public involvement, including review of the Draft EA, is key to a full evaluation of this project. A description of public participation in the process thus far can be found in Chapter 1, V. Public Involvement and Appendix B – Letters of Comment.

The entire EA is available on the Service Internet Web site: (<http://midwest.fws.gov/planning/maraisdescygnestop.htm>). A summary and/or notice of availability will be given to everyone on the mailing list. The mailing list includes all landowners within the study area, elected government officials, Open House and Focus Group attendees, and others interested in the proposal.
